Herewith the comments I gave Ehud on 1-4. These were done quickly and dirtily, so I think more important to be guided by your best sense of how to achieve the goals we discussed today, but just in case it's useful. Let me know, by the way, if you'd like this kind of edit now for the full ms. I'm not dying to do it, but if it would prove useful, I'll do it.
